What This Means for You

As you know, we are a small business just like yourselves. We are fortunate to have sustained through this rough economy, and we find ourselves wanting to broaden our advertisement for many reasons.

Simply said, advertisement equals more clients. Of course, as any small business, a bigger client base equals growth for us. While this growth can cause pressure on current clients. With this in mind, we promise to be accessible and accurate, and provide our clients the same exceptional consideration that you have always received.

With our increase in advertising, we are making efforts to include our clients. This includes links to your websites and emails on our website, if you wish, and a featured business section in our newsletter (keep reading for more information) We simply ask that you will return the favor for us.

Featured Business

See your business here! Each month, we will choose one business from our client base to highlight.

Your information will reach not only our clients, but other businesses in the area, and potential clients.

We are creating a random list for the order of businesses featured. Included in this section will be general information about your business, typical projects or work that you do, and any other information you wish to be included.

We will contact you the month before your company is featured to ensure any and all info is accurate.

News in Accounting

Here, we will feature any news in the accounting field that would be of interest to our clients and small business owners in the area. This can range from changes in payroll tax changes, forms, Income tax changes, important dates and upcoming deadlines.

Please let us know if you hear of anything you would like us to check up on and include in this section.

Advertise with Us!

Please let us know if you would like us to provide a link to you on our website. This will provide contact with our current as well as prospective customers. WE will have contact info for County, State and Federal Offices, as well as our clients, local business owners and need to know information for businesses such as CPA, Financial Planning and much more!
